Note 1 – Summary of Business and Significant Accounting Policies

Description of Business

The ONE Group Hospitality, Inc. and its subsidiaries (collectively, the “Company”) is an international restaurant company that develops, owns and operates, manages, franchises and licenses upscale and polished casual, high-energy restaurants. The Company’s primary restaurant brands are STK, a modern twist on the American steakhouse concept featuring premium steaks, seafood and specialty cocktails in an energetic upscale atmosphere, Benihana, an interactive dining destination with highly skilled chefs preparing food in front of guests and served in an energetic atmosphere alongside fresh sushi and innovative cocktails, Kona Grill, a polished casual bar-centric grill concept featuring American favorites, award-winning sushi, and specialty cocktails in an upscale casual atmosphere, and RA, a Japanese cuisine concept that offers a fun-filled, bar-forward, upbeat, and vibrant dining atmosphere anchored by creative sushi, inventive drinks, and outstanding service.

As of June 28, 2026, the Company owned, operated, managed, franchised, or licensed 158 venues, including 32 STKs, 85 Benihanas, 23 Kona Grills and 12 RAs in major metropolitan cities in North America, Europe, Latin America and the Middle East and 6 food and beverage (“F&B”) venues in three hotels and casinos in the United States and Europe. For those restaurants and venues that are managed, licensed or franchised, the Company generates management fees and franchise fees based on top-line revenues and incentive fee revenue based on a percentage of the location’s revenues and profits.

On January 1, 2025, the Company transitioned from a calendar-based fiscal year to a 52/53-week fiscal year. Beginning in 2025, the Company’s fiscal year will end on the last Sunday in December. The Company’s second quarter of 2026 was the 91-day period of March 30, 2026 through June 28, 2026 compared to the second quarter of 2025 which was the 91-day period of March 31, 2025 through June 29, 2025. The six periods ended June 28, 2026 and the six periods ended June 29, 2025 consisted of the first 182 and 180 days of the 2026 and 2025 fiscal years, respectively. The Company’s fiscal year ending December 27, 2026 will contain 364 days. The fiscal year ended December 28, 2025 contained 362 days due to the transition.

Basis of Presentation

The accompanying condensed consolidated balance sheet as of December 28, 2025, which has been derived from audited financial statements, and the accompanying unaudited interim condensed consolidated financial statements (“condensed consolidated financial statements”) of the Company have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) and in accordance with accounting principles generally accepted in the U.S. (“GAAP”). Certain information and footnote disclosures normally included in annual audited financial statements have been omitted pursuant to SEC rules and regulations. These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 28, 2025.

In the Company’s opinion, the accompanying unaudited interim financial statements reflect all adjustments (consisting only of normal recurring accruals and adjustments) necessary for a fair presentation of the results for the interim periods presented. The results of operations for any interim period are not necessarily indicative of the results expected for the full year. Additionally, the Company believes that the disclosures are sufficient for interim financial reporting purposes.

Prior Period Reclassifications

The Company reclassified \$1.5 million and \$3.1 million for the three and six periods ended June 29, 2025, respectively, in stock-based compensation to general and administrative expenses within the prior period segment reporting footnote to conform to the current year presentation. Refer to Note 14 – Segment Reporting.

Recent Accounting Pronouncements

In April 2026, the FASB issued ASU 2026-01, “Equity (Topic 505): Initial Measurement of Paid-in-Kind Dividends on Equity-Classified Preferred Stock”. This ASU clarifies how issuers initially measure paid-in-kind (“PIK”) dividends on equity-classified preferred stock by requiring issuers to use the PIK dividend rate stated in the preferred stock agreement. The amendment is effective for fiscal years beginning after December 15, 2026, with early adoption permitted. The Company is evaluating the impact of adopting this ASU on its condensed consolidated financial statements.

In November 2024, the FASB issued ASU 2024-03, “Income Statement-Reporting Comprehensive Income-Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses.” This ASU requires detailed qualitative and quantitative disclosures for certain costs and expenses on the income statement. The amendment is effective for fiscal years beginning after December 15, 2026, with early adoption permitted. The Company is evaluating the impact of adopting this ASU on its disclosures.

The Company's projected annual effective tax rate differs from the statutory U.S. tax rate of 21% primarily due to the following: (i) tax credits for FICA taxes on certain employees' tips; (ii) taxes owed in foreign jurisdictions with tax rates that differ from the U.S. statutory rate; (iii) taxes owed in state and local jurisdictions; and (iv) the tax effect of non-deductible compensation.

The Company is subject to U.S. federal, state, local and various foreign income taxes for the jurisdictions in which it operates. Note 10 – Earnings (Loss) Per Share

Basic loss per share is computed using the weighted average number of common shares outstanding and penny warrants during the period and net loss available to common stockholders. Diluted loss per share is computed using the weighted average number of common shares outstanding during the period and excludes the dilutive effect of potential shares of common stock including common stock issuable pursuant to stock options, warrants, and restricted stock units. The two-class method for computing earnings per share will be utilized when applicable.

For the three and six periods ended June 28, 2026 and June 29, 2025, net loss per share was calculated as follows (in thousands, except net loss per share and related share data):

	For the three periods ended June 28, 2026	For the three periods ended June 29, 2025 (as restated)	For the six periods ended June 28, 2026	For the six periods ended June 29, 2025 (as restated)
Net (loss) income attributable to The ONE Group Hospitality, Inc.	\$ (2,122)	\$ (10,104)	\$ 1,080	\$ (9,129)
Series A Preferred Stock paid-in-kind dividend and accretion	(9,856)	(8,137)	(19,251)	(15,728)
Net loss available to common stockholders	(11,978)	(18,241)	(18,171)	(24,857)
Basic weighted average shares outstanding	33,473,486	32,841,424	33,334,228	32,895,526
Dilutive effect of stock options, warrants and restricted share units	—	—	—	—
Diluted weighted average shares outstanding	33,473,486	32,841,424	33,334,228	32,895,526
Basic net loss per common share	\$ (0.36)	\$ (0.56)	\$ (0.55)	\$ (0.76)
Diluted net loss per common share	\$ (0.36)	\$ (0.56)	\$ (0.55)	\$ (0.76)

For the three periods ended June 28, 2026 and June 29, 2025, 2.0 million and 1.7 million, respectively, of stock options, warrants and restricted share units were determined to be anti-dilutive and were therefore excluded from the calculation of diluted earnings per share. For the six periods ended June 28, 2026 and June 29, 2025, respectively, 1.8 million and 1.6 million of stock options, warrants and restricted share units were anti-dilutive.

Subsequent to the issuance of the June 29, 2025 condensed consolidated financial statements, management identified an error in the earnings (loss) per share calculation due to the Company incorrectly excluding 1.9 million of penny warrants from basic weighted average common shares outstanding. The above table has been restated to include the penny warrants in the weighted average common shares outstanding for the three and six periods ended June 29, 2025. The 1.9 million of penny warrants were also removed from the previously reported anti-dilutive share totals for the three and six periods ended June 29, 2025. The loss per share has been restated in the above table from \$0.59 and \$0.80 per share previously reported for the three periods and six periods ended June 29, 2025, respectively. Amounts for basic and diluted loss per share and weighted average common shares have also been restated in the Condensed Consolidated Statements of Operations. Management considered both quantitative and qualitative factors and determined that the impact of the error is immaterial to prior periods.

Note 11 – Series A Preferred Stock

On May 1, 2024, the Company issued 160,000 shares of Series A Preferred Stock for \$160.0 million, subject to a 5% original issuance discount. Additionally, the Company recorded an additional discount of \$2.3 million for expenses paid to the holders of the Series A Preferred Stock in connection with the issuance of the Series A Preferred Stock.

The Series A Preferred Stock is non-voting and non-convertible; has compounding dividends that begin at a rate of 13.0% per annum and increase over time at specified intervals; is subject to optional redemption by the Company and mandatory redemption following specified events and in certain circumstances upon the exercise by the holders of a majority of the outstanding shares of Series A Preferred Stock of an option to deliver written notice to the Company to require redemption, in each case, for specified prices; and gives certain consent rights for the holders of a majority of the outstanding shares of Series A Preferred Stock for specified matters.

However, at any time between the third and fourth anniversary of the issuance date, the Company may repurchase all or some of the preferred stock for 102.5% of the liquidation preference. At any time after the fourth anniversary, the Company may repurchase all or some of the preferred stock for 100% of the liquidation preference.

Since the redemption of the Series A Preferred Stock is contingently redeemable and therefore not certain to occur, the Series A Preferred Stock is not required to be classified as a liability under ASC 480, Distinguishing Liabilities from Equity. As the Series A Preferred Stock is redeemable in certain circumstances at the option of the holder and is redeemable in certain circumstances upon the occurrence of an event that is not solely within the Company's control, the Series A Preferred Stock is classified separately from stockholders' equity in the condensed consolidated balance sheets.

As our footprint increases, we expect to benefit by leveraging system-wide operating efficiencies and best practices through the management of our general and administrative expenses as a percentage of overall revenue.

As part of this initiative, we permanently closed one RA restaurant in January 2026. In addition, we temporarily closed three Kona Grill restaurants and two RA restaurants in January 2026 that will be converted into a Benihana or STK restaurant.

Our Growth Strategies and Outlook

Our growth model is primarily driven by the following:

- Expansion of STK and Benihana restaurants by opening primarily franchised and licensed locations
- From time to time, Company owned restaurants that may be under lease

- Increase same store sales
- Increase operating efficiency
- Opportunistic acquisitions

EBITDA, Adjusted EBITDA, Restaurant operating profit and Restaurant EBITDA are presented in this Quarterly Report on Form 10-Q to supplement other measures of financial performance. EBITDA, Adjusted EBITDA, Restaurant operating profit and Restaurant EBITDA are not required by, or presented in accordance with, accounting principles generally accepted in the U.S. ("GAAP"). We define EBITDA as net income before interest expense, provision for income taxes and depreciation and amortization. We define Adjusted EBITDA as net income before interest expense, provision for income taxes, depreciation and amortization, stock-based compensation, lease termination and restaurant closure expenses, transition and integration expenses, transaction costs, non-cash rent, non-cash impairment loss, non-recurring gains and losses, certain transactional and exit costs and loss on early debt extinguishment. Not all the aforementioned items defining Adjusted EBITDA occur in each reporting period but have been included in our definitions of terms based on our historical activity. Adjusted EBITDA presented in this Quarterly Report on Form 10-Q is a supplemental measure of financial performance that is not required by, or presented in accordance with, GAAP. We define Restaurant operating profit as owned restaurant net revenue minus owned restaurant cost of sales and owned restaurant operating expenses. We define Restaurant EBITDA as owned restaurant net revenue minus owned restaurant cost of sales and owned restaurant operating expenses before non-cash rent.

We believe that EBITDA, Adjusted EBITDA, Restaurant operating profit and Restaurant EBITDA are appropriate measures of our operating performance because they eliminate non-cash or non-recurring expenses that do not reflect our underlying business performance. We believe Restaurant operating profit and Restaurant EBITDA are important components of financial results because they are widely used metrics within the restaurant industry to evaluate restaurant-level productivity, efficiency, and performance, and we use Restaurant operating profit and Restaurant EBITDA as a key metric to evaluate our restaurant financial performance compared to our competitors. We use these metrics to facilitate a comparison of our operating performance on a consistent basis from period to period, to analyze the factors and trends affecting our business and to evaluate the performance of our restaurants. Adjusted EBITDA has limitations as an analytical tool and our calculation of Adjusted EBITDA may not be comparable to that reported by other companies; accordingly, you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Adjusted EBITDA is a key measure used by management and is a metric used in our debt compliance calculation. Additionally, Adjusted EBITDA and Restaurant operating profit are frequently used by analysts, investors and other interested parties to evaluate companies in our industry. We use Adjusted EBITDA and Restaurant operating profit, alongside other GAAP measures such as net income, to measure profitability, as a key profitability target in our budgets, and to compare our performance against that of peer companies despite possible differences in calculation.

Liquidity and Capital Resources

Executive Summary

Our principal liquidity requirements are to meet our lease obligations, working capital and capital expenditure needs and to pay principal and interest on outstanding debt. Subject to our operating performance, which, if significantly adversely affected, would adversely affect the availability of funds, we expect to finance our operations for at least the next 12 months and the foreseeable future, including the costs of opening currently planned new restaurants, through cash provided by operations, construction allowances provided by landlords of certain locations and borrowings under our Credit Agreement. We also may borrow on our Revolving Facility or issue equity, including preferred stock, to support ongoing business operations. We believe these sources of financing are adequate to support our immediate business operations and plans. As of June 28, 2026, we had cash and cash equivalents of \$6.4 million. Our credit card receivables as of June 28, 2026 were \$10.7 million, which are typically collected within four days. We had \$347.7 million in long-term debt, which primarily consisted of borrowings under our Credit Agreement as of June 28, 2026. As of June 28, 2026, the availability on our Revolving Facility was \$28.7 million, subject to certain conditions.

For the six periods ended June 28, 2026, capital expenditures were \$23.0 million, of which \$15.4 million related to the construction of new STK, Benihana and Kona Grill restaurants, \$2.5 related to remodels or major projects at existing restaurants and \$4.7 million related to existing restaurants. We expect to receive between \$1.0 million to \$1.6 million in landlord contributions in the next three months.

(1) Includes inventory of restaurant equipment for venues under development.

Our operations have not required significant working capital, and, like many restaurant companies, we may have negative working capital during the year. Revenues are received primarily in credit card or cash receipts, and restaurant operations do not require significant receivables or inventories, other than our wine inventory. In addition, we receive trade credit for the purchase of food, beverages and supplies, thereby reducing the need for incremental working capital to support growth. Due to the seasonality of our business, we typically generate a greater proportion of our cash flow from operations during the fourth quarter.

Our future cash requirements will depend on many factors, including the pace of expansion, conditions in the retail property development market, construction costs, the nature of the specific sites selected for new restaurants, and the nature of the specific leases and associated tenant improvement allowances available, if any, as negotiated with landlords. We have made significant investments in our training and development teams to support new restaurants openings. We believe these investments are necessary to support the successful opening of our new restaurants. If we modify our growth plans, the personnel that comprise our training team could be deployed to operate existing restaurants.

To help manage future cash requirements, we intend to prioritize capital-efficient growth in 2026, significantly reducing discretionary capital expenditures. New-restaurant Company-owned development will focus on locations requiring \$1.5 million or less, net of tenant improvement allowance, to open. We plan to convert up to an additional nine Company-owned Grill restaurants to Benihana or STK formats. These conversions are expected to require approximately \$1.0 million in capital investment and are anticipated to be accretive to EBITDA.

Credit Agreement

Refer to Note 5 and Note 16 to our condensed consolidated financial statements set forth in Item 1 of this Quarterly Report on Form 10-Q for further information regarding our long-term debt arrangements and commitments and contingencies.

Capital Expenditures and Lease Arrangements

When we open new Company-owned restaurants, our capital expenditures for construction increase. For owned STK restaurants, where we build from a shell state, we have typically targeted a restaurant size of 8,000 square feet with a net cash investment of approximately \$450 to \$500 per square foot, made up of a gross cash investment of \$600 to \$650 per square foot and \$150 per square foot in landlord contributions. STK restaurants opened in 2024 and 2025 had a gross cost per square foot of \$689 and \$119 per square foot in landlord contributions with an average size of 11,922 square feet. For owned Benihana restaurants, where we build from a shell state, we have typically targeted a restaurant size of 6,000 to 7,000 square feet. In situations where we add functional space and build a restaurant with a mezzanine, covered patio, or rooftop, costs per square foot will increase. Typical cash pre-opening costs are \$0.6 million to \$0.8 million, excluding the impact of cash and non-cash pre-opening rent. In addition, some of our existing restaurants will require capital improvements to either maintain or improve the facilities. We may add seating or provide enclosures for outdoor space in the next twelve months for some of our locations, when we believe that will increase revenues for those locations.

Our hospitality F&B services projects typically require limited capital investment from us. Capital expenditures for these projects are primarily funded by cash flows from operations and equipment financing, depending upon the timing of these expenditures and cash availability.

We typically seek to lease our restaurant locations for periods of 10 to 20 years under operating lease arrangements, with a limited number of renewal options. Our rent structure varies, but our leases generally provide for the payment of both minimum and contingent rent based on sales, as well as other expenses related to the leases such as our pro-rata share of common area maintenance, property tax and insurance expenses. Many of

our lease arrangements include the opportunity to secure tenant improvement allowances to partially offset the cost of developing and opening the related restaurants. Generally, landlords recover the cost of such allowances from increased minimum rents. However, there can be no assurance that such allowances will be available to us on each project that we select for development.

Financing Activities Net cash used in financing activities for the six periods ended June 28, 2026 was \$7.1 million, primarily comprised of \$4.4 million of repayments under the Term Loan Facility and \$2.0 million in the repayments net of borrowings on the Revolving Facility compared to net cash used in financing activities of \$2.2 million for the six periods ended June 29, 2025.

Recent Accounting Pronouncements

See Note 1 to our condensed consolidated financial statements set forth in Item 1 of this Quarterly Report on Form 10-Q for a detailed description of recent accounting pronouncements. We do not expect the recent accounting pronouncements discussed in Note 1 to have a significant impact on our consolidated financial position or results of operations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

As a “smaller reporting company,” as defined in Item 10 of Regulation S-K, we are not required to provide this information.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, as our controls are designed to do, and management necessarily applies its judgment in evaluating the risk and cost benefit relationship related to controls and procedures.

Our Chief Executive Officer and Chief Financial Officer have reviewed the effectiveness of our disclosure controls and procedures as of June 28, 2026 and based on this evaluation, have concluded that our disclosure controls and procedures were effective as of June 28, 2026.

Changes in Internal Controls

There have been no changes in our internal controls over financial reporting that occurred during the quarter ended June 28, 2026 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

We are subject to claims common to our industry and in the ordinary course of our business. Companies in our industry, including us, have been and are subject to class action lawsuits, primarily regarding compliance with labor laws and regulations. Defending lawsuits requires significant management attention and financial resources and the outcome of any litigation is inherently uncertain. We believe that accrual and disclosure for these matters are adequately provided for in our consolidated financial statements. We do not believe the ultimate resolutions of these matters will have a material adverse effect on our consolidated financial position and results of operations. However, the resolution of lawsuits is difficult to predict. A significant increase in the number of these claims, or one or more successful claims under which we incur greater liabilities than is currently anticipated, could materially and adversely affect our consolidated financial statements.

Item 1A. Risk Factors.

Except as set forth below, there have been no material changes to the risk factors contained in Item 1A of our Form 10-K for the year ended December 28, 2025.

Geopolitical instability and armed conflict involving Iran could adversely affect our business, financial condition and results of operations.

Ongoing or future armed conflict, heightened geopolitical tensions, or military hostilities involving Iran, including the full or partial closure of the Strait of Hormuz or restricted access to the Red Sea, damage to energy production, transport facilities or infrastructure, or retaliatory actions by regional or global powers, could materially and adversely affect global economic conditions and financial markets. Such developments could disrupt international trade, energy markets, fertilizer markets, currency stability and transportation routes, leading to increased volatility in commodity prices, supply chain disruptions, inflationary pressures and reduced consumer and business confidence.

In addition, any conflict involving Iran could result in further regulatory constraints, sanctions compliance obligations, limitations on cross-border transactions or restrictions on access to certain markets, counterparties or financial institutions. These factors may increase our operating costs, delay or impair our ability to execute strategic initiatives, limit growth opportunities or negatively impact demand for building materials. The extent of these impacts is uncertain and may be exacerbated by the duration, geographic scope and severity of such geopolitical developments, any of which could have a material adverse effect on our business, financial condition and results of operations.

Item 5. Other Information

(c) Adoption or Termination of 10b5-1 Trading Plans

During the second quarter ended June 28, 2026, no director or officer adopted, modified, or terminated any Rule 10b5-1 trading arrangement or non-Rule 10b5-1 trading arrangement, as such terms are defined in Item 408(a) of Regulation S-K.
