<u>99.1</u>	Press Release, dated January 8, 2018
99.2	Investor Presentation of The ONE Group Hospitality, Inc., dated January 8, 2018.

The ONE Group Announces Preliminary Fourth Quarter Sales

New York, NY - January 8, 2018 - The ONE Group Hospitality, Inc. ("The ONE Group") (NASDAQ: STKS) today announced preliminary unaudited sales for the fourth quarter of 2017, which ended December 31, 2017.

Preliminary sales highlights for the quarter ended December 31, 2017 are as follows:

- Total revenues are expected to be approximately \$21.0 million, compared to \$20.4 million, an approximate 3.0% increase, for the same quarter last year.
- Comparable sales* are expected to have increased approximately 9.5% compared to the same quarter last year, including an approximate 6.0% increase in US comparable store sales and an approximate 15.5% increase in international comparable store sales.

*Comparable sales or same store sales ("SSS"), represents total food and beverage sales at owned and managed units opened for a full 18-month period. This metric includes total revenue from our US owned and managed STK locations as well as the revenue reported to us with respect to comparable sales at our international managed locations (measured in constant currency), and excludes revenues where we do not directly control the event sales force (Royalton, NY and Westwood, CA).

Manny Hilario, President and CEO of The ONE Group stated, "We are pleased with our preliminary sales results for 2017 as we continue to make progress on the four-point strategy we launched at the beginning of the year. This is evident by the notable improvement in profits for the first three quarters as well as our increased comparable store sales, the improvement in our event business, and stronger gift card sales. We will continue this focus into 2018 while we implement other important initiatives to further increase sales and continue the improvement in our performance."

Mr. Hilario continued, "We continue to see strong interest in STK and in our hospitality program globally, and our worldwide development pipeline for 2018 remains strong as we continue to focus on our asset-light business strategy."

Preliminary results remain subject to the completion of normal quarter-end accounting procedures and adjustments and are subject to change. The Company currently expects to release financial and operating results for its fourth quarter and fiscal year ended December 31, 2017 in March 2018.

About The ONE Group

The ONE Group (NASDAQ:STKS) is a global hospitality company that develops and operates upscale, high-energy restaurants and lounges and provides hospitality management services for hotels, casinos and other high-end venues both nationally and internationally. The ONE Group's primary restaurant brand is STK, a modern twist on the American steakhouse concept with locations in major metropolitan cities throughout the U.S., Canada, Europe and the Middle East. ONE Hospitality, The ONE Group's food and beverage hospitality services business, provides the development, management and operations for premier restaurants and turn-key food and beverage services within high-end hotels and casinos. Additional information about The ONE Group can be found at www.togrp.com.

Cautionary Statement on Forward-Looking Statements

This press release includes "forward-looking statements" within the meaning of the "safe harbor" provisions of the United States Private Securities Litigation Reform Act of 1995. For example, the statements related to the exploration of strategic alternatives and the potential results therefrom and the statements related to our strategic review of our operations targeting sources for 2017 and beyond are forward-looking. Forward-looking statements may be identified by the use of words such as "anticipate", "believe", "expect", "estimate", "plan", "outlook", and "project" and other similar expressions that predict or indicate future events or trends or that are not statements of historical matters. A number of factors could cause actual results or outcomes to differ materially from those indicated by such forward-looking statements, including but not limited to, (1) our ability to open new restaurants and food and beverage locations in current and additional markets, grow and manage growth profitably, maintain relationships with suppliers and obtain adequate supply of products and retain our key employees; (2) factors beyond our control that affect the number and timing of new restaurant openings, including weather conditions and factors under the control of landlords, contractors and regulatory and/or licensing authorities; (3) in the case of our strategic review of operations, our ability to successfully improve performance and cost, realize the benefits of our marketing efforts, and achieve improved results as we focus on developing new management and license deals; (4) changes in applicable laws or regulations; (5) the possibility that the Company may be adversely affected by other economic, business, and/or competitive factors; and (6) other risks and uncertainties indicated from time to time in our filings with the SEC, including our Annual Report on Form 10-K filed on April 5, 2017.

Investors are referred to the most recent reports filed with the SEC by The ONE Group Hospitality, Inc. Investors are cautioned not to place undue reliance upon any forward-looking statements, which speak only as of the date made, and we undertake no obligation to update or revise the forward-looking statements, whether as a result of new information, future events, or otherwise.

INVESTOR PRESENTATION JANUARY 2018

Cautionary Statements

Forward-Looking Statements

In addition to historical information, this presentation contains statements relating to the Company's future business and financial performance and future events or developments that may constitute "forward-looking statements" within the meaning of the "safe harbor" provisions of the United States Private Securities Litigation Reform Act of 1995. These statements are based on current expectations and assumptions that are subject to certain risks and uncertainties. These statements include forward-looking statements with respect to the Company's business and industry in general. Statements that include the words "expect," "intend," "plan," "believe," "project," "forecast," "estimate," "may," "should," "anticipate" and similar statements of a future or forward-looking nature identify forward-looking statements for purposes of the federal securities laws or otherwise. A variety of factors, many of which are beyond the Company's control, affect the Company's operations, performance, business strategies and results and there can be no assurance that the Company's actual results will not differ materially from those indicated in these statements. These factors include, but are not limited to, continued compliance with governmental regulation, the ability to open new restaurants and food and beverage locations in current and additional markets. More detailed information about these risk factors may be found in the Company's filings with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the year ended December 31, 2016. The statements made herein speak only as of the date of this presentation. The Company undertakes no obligation to update its forward-looking statements to reflect events or circumstances after the date of this presentation.

Non-GAAP Financial Measures

This presentation contains certain non-GAAP financial measures. A "non-GAAP financial measure" is defined as a numerical measure of a company's financial performance that excludes or includes amounts so as to be different than the most directly comparable measure calculated and presented in accordance with GAAP in the statements of income, balance sheets or statements of cash flow of the Company. These measures are presented because management uses this information to monitor and evaluate financial results and trends and believes this information to also be useful for investors. The Company has both wholly-owned and partially-owned subsidiaries. Total food and beverage sales at owned and managed units represents our total revenue from our owned operations as well as the sales reported to us by the owners of locations we manage, where we earn management and incentive fees. EBITDA is defined as net income before interest expense, provision for income taxes and depreciation and amortization. Adjusted EBITDA represents net income before interest expense, provision for income taxes, depreciation and amortization, non-cash impairment loss, deferred rent, pre-opening expenses, non-recurring gains and losses and losses from discontinued operations. The disclosure of EBITDA and Adjusted EBITDA and other non-GAAP financial measures may not be comparable to similarly titled measures reported by other companies. EBITDA and Adjusted EBITDA should be considered in addition to, and not as a substitute, or superior to, net income, operating income, cash flows, revenue, or other measures of financial performance prepared in accordance with GAAP. For a reconciliation of total food and beverage sales at owned and managed units, EBITDA, and Adjusted EBITDA to the most directly comparable financial measures presented in accordance with GAAP and a discussion of why we consider them useful, see the Company's filings with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the year ended December 31, 2

The ONE Group in Motion

The ONE Group

We are a global hospitality company that develops and operates upscale, high-energy restaurants and turn-key food & beverage services for hospitality venues including hotels, casinos and other high end locations

Demonstrated Need for Experienced Hospitality F&B Partners

- Outsourcing F&B services becoming more prevalent within the hospitality industry
- Historically hotels have not been successful with F&B operations and would prefer to focus on core competencies
- Developers incentivized to split hotel management and F & B contracts to increase earnings
- Unions increasing control of hotel operations prompts hoteliers to use 3rd parties for F&B hospitality services
- Hotel industry continues to attract professional capital globally
- Branded restaurant venues have demonstrated ability to drive occupancy, average daily room rate and appeal of property

"While F&B outsourcing is a relatively new concept, there is a lot to like about [it] from an owner's perspective. For starters, <u>F&B services delivered by experienced providers with brand power are likely to increase the profitability and revenue of the F&B department.</u>..hotel owners can expect increases in ADR and occupancy levels."

- Hotel News Now, October 2014

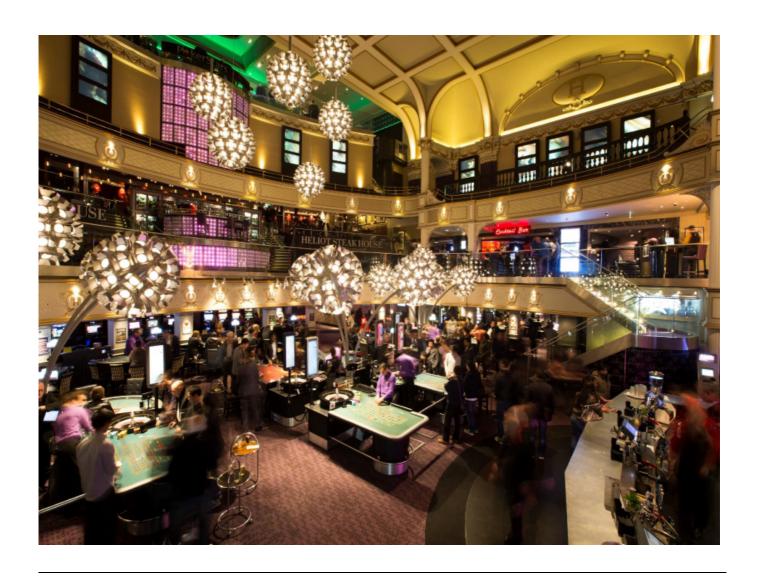

"From the hotel's perspective, a joint venture or outsourcing arrangement can provide a combination of restaurant skills and brand strength, often supported by national advertising. Hotels adding branded restaurants have reported improved F&B volume, including room service sales, as well as an attendant increase in occupancy and average rate. In a period of hospitality industry consolidation, branded restaurants may become a point of differentiation among hotel properties"

- 3P Hospitality Resources

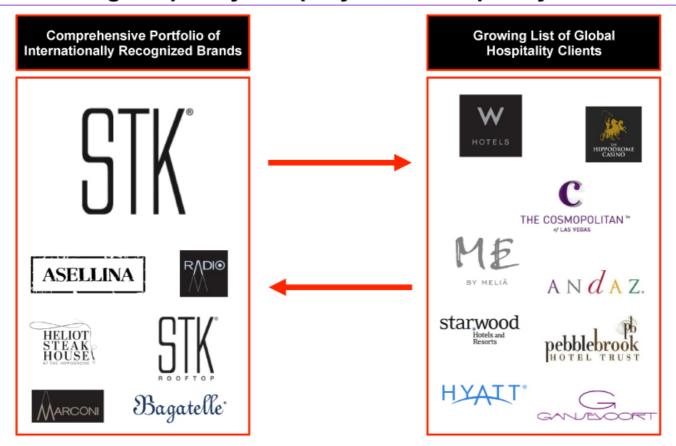

"In addition to brand identity, most operators find that guests are not only more willing to patronise high-street brands conveniently situated within the hotel, but they are also willing to pay more for the privilege of dining with a familiar concept... Hotels introducing a branded restaurant into their property often experience higher external traffic. Market exposure translates into increased outlet revenue and enhanced customer perception of the F&B outlet brand name, as well as enhanced customer perception of the hotel itself."

- Hotel Online

Multiple Levers for Expected Future Growth

STK Expansion

- Opportunity for ~150 STKs globally, across large and mid-sized markets
- Targeting 3-5 new STK restaurants per year, short-term
- Blend of managed and licensed units, which require lower capital investment and produce high margin royalty, management and incentive fee streams

Hospitality Growth

- Opportunity for at least 50 hospitality management agreements globally, 2-3 per city
- Targeting 1 new hospitality management agreement per year, short-term
- Would include an STK or uniquely tailored concept

Operational Initiatives

- Drive same store sales through traffic and average check growth
- Enhance margins by focusing on high-quality, high-margin food and beverage menu items
- Leverage systemwide operating efficiencies and best practices to further drive EBITDA growth

Summary of Expected Development

The ONE Group is Poised for Continued Growth
