PLASTRON ACQUISITION CORP. II A Development Stage Company NOTES TO FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

(a) Organization and Business:

Plastron Acquisition Corp. II, (the "Company") was incorporated in the state of Delaware on January 24, 2006 for the purpose of raising capital that is intended to be used in connection with its business plans which may include a possible merger, acquisition or other business combination with an operating business.

The Company is currently in the development stage as defined in SFAS No. 7. All activities of the Company to date relate to its organization, initial funding and share issuances.

Going Concern

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles, which contemplate continuation of the Company as a going concern. The Company has not begun generating revenue, is considered a development stage company, has experienced recurring net operating losses, had a net loss of \$(23,896) for the nine months ended September 30, 2007, and a working capital deficiency of \$(6,847) at September 30, 2007. These factors raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

(b) Basis of Presentation:

The accompanying unaudited financial statements have been prepared in accordance with Securities and Exchange Commission requirements for interim financial statements. Therefore, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The financial statements should be read in conjunction with the Form 10-SB for the year ended December 31, 2006 of the Company.

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States.

The interim financial information is unaudited. In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present fairly the financial position as of September 30, 2007 and the results of operations and cash flows presented herein have been included in the financial statements. Interim results are not necessarily indicative of results of operations for the full year.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. At the balance sheet date, the Company has a deficit accumulated during the development stage. These factors indicate substantial doubt about the Company's ability to continue as a going concern. Management plans to issue more shares of common stock in order to raise funds. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

PLASTRON ACQUISITION CORP. II A Development Stage Company NOTES TO FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

(c) Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(d) Cash and Cash Equivalents:

For purposes of the statement of cash flows, the Company considers highly liquid financial instruments purchased with a maturity of three months or less to be cash equivalents.

(e) Income Taxes:

The Company adopted FASB Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes", which clarifies the accounting for uncertainty in income taxes recognized in the financial statements in accordance with SFAS No. 109, "Accounting for Income Taxes." The Company utilizes the liability method of accounting for income taxes. Under the liability method deferred tax assets and liabilities are determined based on the differences between financial reporting basis and the tax basis of the assets and liabilities and are measured using enacted tax rates and laws that will be in effect, when the differences are expected to reverse. An allowance against deferred tax assets is recognized, when it is more likely than not, that such tax benefits will not be realized.

Any deferred tax benefit is considered immaterial and has been fully offset by a valuation allowance because at this time the Company believes that it is more likely than not that the future tax benefit will not be realized as the Company has no current operations.

(f) Loss per Common Share:

Basic loss per share is calculated using the weighted-average number of common shares outstanding during each reporting period. Diluted loss per share includes potentially dilutive securities such as outstanding options and warrants, using various methods such as the treasury stock or modified treasury stock method in the determination of dilutive shares outstanding during each reporting period. The Company does not have any potentially dilutive instruments.

(g) Fair Value of Financial Instruments:

The carrying value of cash equivalents and accrued expenses approximates fair value due to the short period of time to maturity.

PLASTRON ACQUISITION CORP. II A Development Stage Company NOTES TO FINANCIAL STATEMENTS

NOTE 2 - NOTE PAYABLE - RELATED PARTY

On March 9, 2007, the Company entered into a loan agreement with BCM, pursuant to which the Company agreed to repay \$12,500 on or before the earlier of (i) December 31, 2012 or (ii) the date that the Company (or a wholly owned subsidiary of the Company) consummates a merger or similar transaction with an operating business (the "Maturity Date"). BCM had previously advanced the \$12,500 on behalf of the Company. Interest shall accrue on the outstanding principal balance of this loan on the basis of a 360-day year daily from January 24, 2006, the effective date of the loan, until paid in full at the rate of four percent (4%) per annum.

NOTE 3 - STOCKHOLDERS' EQUITY (DEFICIT)

The Company is authorized by its Certificate of Incorporation to issue an aggregate of 85,000,000 shares of capital stock, of which 75,000,000 are shares of common stock, par value \$.0001 per share (the "Common Stock") and 10,000,000 are shares of preferred stock, par value \$.0001 per share (the "Preferred Stock"). On March 1, 2006, the Company issued 1,000,000, 600,000, and 400,000 shares to Michael Rapp, Philip Wagenheim, and Clifford Chapman, respectively, for total cash consideration of \$30,000 or \$.015 per share. As of September 30, 2007, 2,000,000 shares of Common Stock were issued and outstanding.

All outstanding shares of Common Stock are of the same class and have equal rights and attributes. The holders of Common Stock are entitled to one vote per share on all matters submitted to a vote of stockholders of the Company. All stockholders are entitled to share equally in dividends, if any, as may be declared from time to time by the Board of Directors out of funds legally available. In the event of liquidation, the holders of Common Stock are entitled to share ratably in all assets remaining after payment of all liabilities. The stockholders do not have cumulative or preemptive rights.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Plastron Acquisition Corp. II ("we", "our", "us" or the "Company") was organized as a vehicle to investigate and, if such investigation warrants, acquire a target company or business seeking the perceived advantages of being a publicly held corporation. Our principal business objective for the next 12 months and beyond such time will be to achieve long-term growth potential through a combination with a business rather than immediate, short-term earnings. The Company will not restrict our potential candidate target companies to any specific business, industry or geographical location and, thus, may acquire any type of business.

Results of Operations

For the three months ending September 30, 2007, the Company had no activities that produced revenues from operations.

For the three months ending September 30, 2007, the Company had a net loss of \$12,118.50. For the nine months ending September 30, 2007, the Company had a net loss of \$23,895.75, comprised mostly of legal, accounting, audit and other professional service fees of \$23,521 incurred in relation to the filing of the Company's Registration Statement on Form 10-SB filed in May of 2007 and Quarterly Reports on Form 10-QSB filed in July of 2007.

Liquidity and Capital Resources

As of September 30, 2007, the Company had assets equal to \$6,479, comprised exclusively of cash and cash equivalents. The Company's current liabilities as of September 30, 2007 totaled \$13,326, comprised exclusively of notes payable and accrued interest.

The following is a summary of the Company's cash flows from operating, investing, and financing activities:

For the Cumulative Period from January 24, 2006 (Inception) to September 30, 2007

Operating activities	\$ (36,021)
Investing activities	-
Financing activities	\$ 42,500
Net effect on cash	\$ 6,479

The Company has nominal assets and has generated no revenues since inception. The Company is also dependent upon the receipt of capital investment or other financing to fund its ongoing operations and to execute its business plan of seeking a combination with a private operating company. If continued funding and capital resources are unavailable at reasonable terms, the Company may not be able to implement its plan of operations.

Plan of Operations

The Company currently does not engage in any business activities that provide cash flow. The costs of investigating and analyzing business combinations for the next 12 months and beyond such time will be paid with money in our treasury.

During the next twelve months we anticipate incurring costs related to:

- (i) filing of reports under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and
- (ii) consummating an acquisition.

We believe we will be able to meet these costs through use of funds in our treasury, through deferral of fees by certain service providers and additional amounts, as necessary, to be loaned to or invested in us by our stockholders, management or other investors.

The Company may consider a business which has recently commenced operations, is a developing company in need of additional funds for expansion into new products or markets, is seeking to develop a new product or service, or is an established business which may be experiencing financial or operating difficulties and is in need of additional capital. In the alternative, a business combination may involve the acquisition of, or merger with, a company which does not need substantial additional capital, but which desires to establish a public trading market for its shares, while avoiding, among other things, the time delays, significant expense, and loss of voting control which may occur in a public offering.

Since our Registration Statement on Form 10-SB became effective, our officers and directors, have had limited contact or discussions with any representative of any other entity regarding a business combination with us. Any target business that is selected may be a financially unstable company or an entity in its early stages of development or growth, including entities without established records of sales or earnings. In that event, we will be subject to numerous risks inherent in the business and operations of financially unstable and early stage or potential emerging growth companies. In addition, we may effect a business combination with an entity in an industry characterized by a high level of risk, and, although our management will endeavor to evaluate the risks inherent in a particular target business, there can be no assurance that we will properly ascertain or assess all significant risks.

The Company anticipates that the selection of a business combination will be complex and extremely risky. Because of general economic conditions, rapid technological advances being made in some industries and shortages of available capital, our management believes that there are numerous firms seeking even the limited additional capital which we will have and/or the perceived benefits of becoming a publicly traded corporation. Such perceived benefits of becoming a publicly traded corporation include, among other things, facilitating or improving the terms on which additional equity financing may be obtained, providing liquidity for the principals of and investors in a business, creating a means for providing incentive stock options or similar benefits to key employees, and offering greater flexibility in structuring acquisitions, joint ventures and the like through the issuance of stock. Potentially available business combinations may occur in many different industries and at various stages of development, all of which will make the task of comparative investigation and analysis of such business opportunities extremely difficult and complex.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Item 3. Controls and Procedures.

Evaluation of disclosure controls and procedures.

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed pursuant to the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules, regulations and related forms, and that such information is accumulated and communicated to our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As of September 30, 2007, we carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in internal controls.

There have been no changes in our internal controls over financial reporting or in other factors during our most recent fiscal quarter that could significantly affect these controls and procedures during the quarterly period ended September 30, 2007.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

To the best knowledge of the officers and directors, the Company is not a party to any legal proceeding or litigation.

Exhibit 31.1

Certification of Principal Executive Officer and Principal Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 and Securities and Exchange Commission Release 34-46427

- I, Michael Rapp, certify that:
- 1. I have reviewed this quarterly report on Form 10-QSB of Plastron Acquisition Corp. II;
- 2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
- 4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
- a) designed such disclosure controls and procedures or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
- b) evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation:
- c) disclosed in this report any change in registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
- a) all deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of Plastron Acquisition Corp. II (the "Company") on Form 10-QSB for the period ended September 30, 2007 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Michael Rapp, certify, pursuant to 18 U.S.C. ss. 1350, as adopted pursuant to ss. 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

/s/ Michael Rapp
