**Note 1 – Summary of Business and Significant Accounting Policies**

*Summary of Business*

The ONE Group Hospitality, Inc. and its subsidiaries (collectively, the “Company”) is a global hospitality company that develops, owns and operates, manages and licenses upscale and polished casual, high-energy restaurants and lounges and provides turn-key food and beverage (“F&B”) services for hospitality venues including hotels, casinos and other high-end locations. Turn-key F&B services are food and beverage services that can be scaled, customized and implemented by the Company for the client at a particular hospitality venue. The Company’s primary restaurant brands are STK, a multi-unit steakhouse concept that combines a high-energy, social atmosphere with the quality and service of a traditional upscale steakhouse, and Kona Grill, a bar-centric grill concept featuring American favorites, award-winning sushi, and specialty cocktails in a polished casual atmosphere.

As of June 30, 2020, the Company owned, operated, managed or licensed 55 venues, including 20 STKs and 24 Kona Grills in major metropolitan cities in North America, Europe and the Middle East and 11 F&B venues including 10 in five hotels and casinos in the United States and Europe.

On October 4, 2019, the Company acquired substantially all of the assets of Kona Grill Inc. and its affiliates (“Kona Grill”), which was composed of 24 domestic restaurants. The Company purchased the assets for a contractual price of \$25.0 million plus approximately \$1.5 million of consideration paid primarily for the apportionment of rent and utilities. The Company also assumed approximately \$7.7 million in current liabilities. The Company continues to integrate Kona Grill by leveraging its corporate infrastructure, bar-business knowledge and unique Vibe Dining program, to elevate the brand experience and drive improved performance. The results of operations of these restaurants are included in the Company’s condensed consolidated financial statements from the date of acquisition.

The following pro forma results of operations for the three and six months ended June 30, 2019 have been prepared as though the acquisition occurred as of January 1, 2019. The pro forma financial information is not indicative of the results of operations that the Company would have attained had the acquisition occurred at the beginning of the periods presented, nor is the pro forma financial information indicative of the results of operations that may occur in the future. Amounts are in thousands, except earnings per share data.

*COVID-19*

The novel coronavirus (“COVID-19”) pandemic has significantly impacted the Company’s business, and public concerns about the spread of COVID-19 continue to be widespread. The Company experienced a significant reduction in guest traffic at its restaurants as a result of restrictions mandated by state and local governments and temporary closure of several restaurants and the shift in operations to provide only take-out and delivery service. Starting in May 2020, state and local governments began easing restrictions on stay-at-home orders and certain Company restaurants were allowed to open for outdoor dining or in-person dining with seating capacity restrictions, which resulted in increased revenues in May and June compared to April 2020.

In response to these conditions, and out of concern for its customers and partners, the Company has implemented enhanced safety measures and sanitation procedures to allow for in-person dining at its restaurants. The Company incurred \$0.7 million and \$2.0 million of costs related to COVID-19 in the three and six months ended June 30, 2020, respectively, composed primarily of payments to employees for paid-time off during restaurant closures, inventory waste, rent and rent related costs for closed and limited-operations restaurants from the day the dining room closed, sanitation supplies and safety precautions taken to prevent the spread of COVID-19. The Company has also implemented measures to reduce its costs during the COVID-19 pandemic, including the furlough

of employees, deferral of capital projects, and negotiations with suppliers and landlords regarding deferral or abatement of payments which could become significant.

Given the ongoing uncertainty surrounding the effects of the COVID-19 pandemic, the Company cannot reasonably predict when its restaurants will be able to return to normal dining room operations. The Company expects that its results of operations will be materially and negatively affected by COVID-19 for the remainder of 2020. The Company's resumption of normal dining operations is subject to events beyond its control, including the effectiveness of governmental efforts to halt the spread of COVID-19.

#### *Basis of Presentation*

The accompanying condensed consolidated balance sheet as of December 31, 2019, which has been derived from audited financial statements, and the accompanying unaudited interim condensed consolidated financial statements of the Company have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") and in accordance with accounting principles generally accepted in the United States ("GAAP"). Certain information and footnote disclosures normally included in annual audited financial statements have been omitted pursuant to SEC rules and regulations. These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2019.

In the Company's opinion, the accompanying unaudited interim financial statements reflect all adjustments (consisting only of normal recurring accruals and adjustments) necessary for a fair presentation of the results for the interim periods presented. The results of operations for any interim period are not necessarily indicative of the results expected for the full year. Additionally, the Company believes that the disclosures are sufficient for interim financial reporting purposes.

#### *Prior Period Reclassifications*

Certain reclassifications of the 2019 financial statements amounts have been made to conform to the current year presentation. The Company has combined owned restaurant net revenues and owned food, beverage and other net revenues to be presented in total as owned restaurant net revenue. Additionally, the Company reclassified \$0.4 million and \$0.9 million of owned food, beverage and other expenses to owned restaurant cost of sales and \$1.8 million and \$3.6 million of owned food, beverage and other expenses to owned restaurant expenses on the accompanying condensed consolidated statements of operations and comprehensive (loss) income for the three and six months ended June 30, 2019, respectively. Certain reclassifications were also made to conform the prior period segment reporting to the current year segment presentation. Refer to Note 13 – Segment Reporting for additional information regarding the Company's reportable operating segments.

#### *Recent Accounting Pronouncements*

In June 2020, the American Institute of Certified Public Accountants in conjunction with the Financial Accounting Standards Board ("FASB") developed Technical Question and Answer ("TQA") 3200.18, "Borrower Accounting for a Forgivable Loan Received Under the Small Business Administration Paycheck Protection Program", which is intended to provide clarification on how to account for loans received from the Paycheck Protection Program ("PPP"). TQA 3200.18 states that an entity may account for PPP loans under ASC 470, "Debt" or, if the entity is expected to meet PPP eligibility criteria and the PPP loan is expected to be forgiven, the entity may account for the loans under IAS 20, "Accounting for Government Grants and Disclosure of Government Assistance". The Company has elected to account for PPP loan proceeds under ASC 470 as allowed by TQA 3200.18.

In December 2019, FASB issued Accounting Standards Update ("ASU") No. 2019-12, "Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes," ("ASU 2019-12") which is intended to simplify various aspects related to accounting for income taxes. ASU 2019-12 removes certain exceptions to the general principles in Accounting Standard Codification Topic 740, Income Taxes, and it clarifies and amends existing guidance to improve consistent application. ASU 2019-12 is effective for annual and interim periods beginning after December 15, 2020. The Company is evaluating the impact of the adoption of ASU 2019-12 on its financial statements but does not expect the adoption of ASU 2019-12 to be material.

In October 2018, the FASB issued ASU No. 2018-17, "Consolidation (Topic 810): Targeted Improvements to Related Party Guidance for Variable Interest Entities" ("ASU 2018-17"). ASU 2018-17 states that indirect interests held through related parties in common control arrangements should be considered on a proportional basis to determine whether fees paid to decision makers and service providers are variable interests. This is consistent with how indirect interests held through related parties under common control are considered for determining whether a reporting entity must consolidate a variable interest entity. ASU 2018-17 is effective for annual and interim periods beginning after December 15, 2019, with early adoption permitted. Entities are required to adopt the new guidance retrospectively with a cumulative adjustment to retained earnings at the beginning of the earliest period presented. The adoption of ASU 2018-17 did not have a material impact on the Company's financial position, results of operations or cash flows.

In August 2018, the FASB issued ASU No. 2018-15, “Intangibles – Goodwill and Other – Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement that is a Service Contract” (“ASU 2018-15”). ASU 2018-15 aligns the requirements for capitalizing implementation costs in cloud computing arrangements with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. ASU 2018-15 is effective for annual and interim periods beginning after December 15, 2019, with early adoption permitted. Entities can choose to adopt the new guidance prospectively or retrospectively. The adoption of ASU 2018-15 did not have a material impact on the Company’s financial position, results of operations or cash flows.

In August 2018, the FASB issued ASU No. 2018-13, “Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement” (“ASU 2018-13”). ASU 2018-13 eliminates, modifies and adds disclosure requirements for fair value measurements. The amendments in ASU 2018-13 are effective for annual and interim periods beginning after December 15, 2019, with early adoption permitted. The adoption of ASU 2018-3 did not have a material impact on the Company’s disclosures of fair value measurement, which are included in Note 6 – Fair Value of Financial Instruments.

*Goldman Sachs Bank USA Credit and Guaranty Agreement*

On October 4, 2019, in conjunction with the acquisition of Kona Grill, the Company entered into a credit and guaranty agreement with Goldman Sachs Bank USA ("Credit Agreement"). The Credit Agreement provides for a secured revolving credit facility of \$12.0 million and a \$48.0 million term loan. The term loan is payable in quarterly installments, with the final payment due in October 2024. The revolving credit facility also matures in October 2024. Additionally, the Company's consolidated adjusted EBITDA as defined by the Credit Agreement for determining covenant compliance includes pro forma adjustments for the annualization of the Kona Grill restaurant performance which includes results before the acquisition date.

On May 4, 2020, Goldman Sachs Bank USA ("GSB"), as administrative agent, collateral agent and lead arranger under the Credit Agreement, (1) consented to the CARES Act Loans described below and (2) agreed that the amount of the CARES Act Loans will not be counted toward the permitted amount of Consolidated Total Debt, as defined under the Credit Agreement, to the extent the amounts are retained as cash during the term of the CARES Act Loans in a segregated deposit account or used for purposes that are forgivable under the CARES Act, provided that the proceeds of the CARES Act Loans must be used only for "allowable uses" under the CARES Act (with at least 75% of the utilized proceeds to be used for purposes that result in the CARES Act Loans being eligible for forgiveness) or used for the repayment of the CARES Act Loans.

On May 8, 2020, GSB and the Company and certain of its subsidiaries entered into an amendment to the Credit Agreement that:

- Relaxes the fixed charge coverage ratio (decreasing the ratio for remaining measurement dates in 2020 to 1.20 to 1.00 from 1.35 to 1.00) and the leverage ratio (increasing the ratio at June 30, 2020 to 3.00 to 1.00 from 2.50 to 1.00, and the ratio at September 30 and December 31, 2020 to 2.75 to 1.00 from 2.25 to 1.00).
- Requires minimum “Consolidated Liquidity” to be \$4,000,000 for the remainder of 2020 (from \$1,500,000).

A summary of the financial covenants under the Credit Agreement, as amended, is as follows:

- A minimum consolidated fixed charge coverage ratio of (i) 1.20 to 1.00 as of the end of any fiscal quarter remaining in 2020; (ii) 1.35 to 1.00 as of March 31, 2021 and June 30, 2021, and (iii) 1.50 to 1.00 as of any fiscal quarter thereafter;
- A maximum consolidated leverage ratio of (i) 3.00 to 1.00 as of the fiscal quarter ending June 30, 2020, (ii) 2.75 to 1.00 as of the fiscal quarters ending September 30, 2020 and December 31, 2020, (iii) 2.00 to 1.00 as of the fiscal quarter ending March 31, 2021, (iv) 1.75 to 1.00 as of the fiscal quarter ending June 30, 2021, (v) 1.70 to 1.00 as of the fiscal quarter ending September 30, 2021, (vi) 1.65 to 1.00 as of the fiscal quarter ending December 31, 2021, and (vii) 1.50 to 1.00 as of the end of any fiscal quarter thereafter. For purposes of calculating this ratio for the first four quarters, the agreement provides for a pro forma adjustment to reflect one full year of Kona Grill operations;
- Maximum consolidated capital expenditures not to exceed (i) \$10,000,000 in 2020, and (ii) \$8,000,000 in 2021 and every fiscal year thereafter; and,
- Minimum consolidated liquidity not to be less than (i) \$4,000,000 for the remainder of 2020, and (ii) \$1,500,000 at any time thereafter.

The Company’s ability to borrow under its revolving credit facility is dependent on several factors. The Company’s total borrowings cannot exceed a leverage incurrence multiple of (i) 2.50 to 1.00 as of June 30, 2020, (ii) 2.25 to 1.00 as of the fiscal quarters ending September 30, 2020 and December 31, 2020, (iii) 2.00 to 1.00 as of the fiscal quarter ending March 31, 2021, (iv) 1.75 to 1.00 as of the fiscal quarter ending June 30, 2021, (v) 1.70 to 1.00 as of the fiscal quarter ending September 30, 2021, (vi) 1.65 to 1.00 as of the fiscal quarter ending December 31, 2021, and (vii) 1.50 to 1.00 as of the end of any fiscal quarter thereafter. In addition, after giving effect to borrowings under the revolving credit facility, the Company’s cash and cash equivalents cannot exceed \$4,000,000.

The Credit Agreement has several borrowing and interest rate options, including the following: (a) a LIBOR rate (or a comparable successor rate) subject to a 1.75% floor; or (b) a base rate equal to the greatest of (i) the prime rate, (ii) the federal funds rate plus 0.50%, (iii) the LIBOR rate for a one-month period plus 1.00%, or (iv) 4.75%. Loans under the Credit Agreement bear interest at a rate per annum using the applicable indices plus a varying interest rate margin of between 5.75% and 6.75% (for LIBOR rate loans) and 4.75% and 5.75% (for base rate loans). The Company’s weighted average interest rate as of June 30, 2020 and December 31, 2019 was 8.49% and 8.52%, respectively.

The Credit Agreement contains customary representations, warranties and conditions to borrowing including customary affirmative and negative covenants, which include covenants that limit or restrict the Company’s ability to incur indebtedness and other obligations, grant liens to secure obligations, make investments, merge or consolidate, alter the organizational structure of the Company and its subsidiaries, and dispose of assets outside the ordinary course of business, in each case subject to customary exceptions for credit facilities of this size and type.

The Company and certain operating subsidiaries of the Company guarantee the obligations under the Credit Agreement, which also are secured by liens on substantially all of the assets of the Company and its subsidiaries.

The Company has incurred approximately \$2.5 million of debt issuance costs related to the Credit Agreement, which were capitalized and are recorded as a direct deduction to the long-term debt, net of current portion, on the condensed consolidated balance sheets. As of June 30, 2020, the Company was in compliance with the covenants required by the Credit Agreement. Refer to Note 16 for further discussion.

#### *CARES Act Loans*

On May 4, 2020, two subsidiaries of the Company entered into promissory notes (“CARES Act Loans”) with BBVA USA under the Paycheck Protection Program (“PPP”) created by the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”). Repayment of the CARES Act Loans is guaranteed by the U.S. Small Business Administration (“SBA”). Repayment of the CARES Act Loans is guaranteed by the SBA. The ONE Group, LLC received a loan of \$9.8 million related to the operations of STK restaurants, and Kona Grill Acquisition, LLC received a loan of \$8.5 million related to the operation of Kona Grill restaurants.

The CARES Act Loans are scheduled to mature on April 28, 2022 and have a 1.00% interest rate and are subject to the terms and conditions applicable to PPP loans. Among other terms, BBVA USA may declare a default of the CARES Act Loans if the SBA disputes the validity of the guaranty of indebtedness, if a material adverse change occurs in the Company's financial condition, or if BBVA USA believes the prospect of repayment of the CARES Act Loans or performance of obligations under the promissory notes is impaired. On an event of default, BBVA USA may declare principal and unpaid interest immediately due and payable, and it may charge default interest of 10%.

The CARES Act Loans are eligible for forgiveness if the proceeds are used for qualified purposes within a specified period and if at least 60% is spent on payroll costs. The Company is using the funds in accordance with the CARES Act and SBA regulations, and these funds have supported the re-opening of in person dining and the return of approximately 3,000 furloughed employees to work. At this time, the Company anticipates forgiveness of the entire amount of the CARES Act Loans; however, no assurance can be provided that the Company will obtain forgiveness of the CARES Act Loans in whole or in part. Therefore, the Company has elected to classify the entire principal amount of the CARES Act Loans as long-term debt on the condensed consolidated balance sheet as of June 30, 2020. As of June 30, 2020, there was \$10.2 million in remaining funds available to be used for qualified purposes.

#### *Equipment Financing Agreements*

On June 5, 2015 and August 16, 2016, the Company entered into financing agreements with Sterling National Bank for \$1.0 million and \$0.7million, respectively, to purchase equipment for the STKs in Orlando, Chicago, San Diego, and Denver. Each of these financing agreements have five- year terms and bear interest at a rate of 5% per annum, payable in equal monthly installments.

#### **Note 6 – Fair Value of Financial Instruments**

Cash and cash equivalents, accounts receivable, inventory, accounts payable and accrued expenses are carried at cost, which approximates fair value due to their short maturities. Long-lived assets are measured and disclosed at fair value on a nonrecurring basis if an impairment is identified. There were no long-lived assets measured at fair value as of June 30, 2020.

The Company's long-term debt, including the current portion, is carried at cost on the condensed consolidated balance sheets. Fair value of long-term debt, including the current portion, is estimated based on Level 2 inputs, except the amount outstanding on the revolving credit facility for which the carrying value approximates fair value. Fair value is determined by discounting future cash flows using interest rates available for issues with similar terms and maturities.

#### **Note 7 – Investments in Bagatelle NY**

As of June 30, 2020 and December 31, 2019, the Company owned interests in the following companies, which directly or indirectly operate a restaurant:

- 31.24% interest in Bagatelle NY LA Investors, LLC ("Bagatelle Investors")
- 51.13% aggregate interest, held directly and indirectly through other entities, in Bagatelle Little West 12th, LLC ("Bagatelle NY")

Bagatelle Investors is a holding company that has an interest in Bagatelle NY. The Company records its retained interests in Bagatelle Investors and Bagatelle NY as investments as the Company has determined that it does not have the ability to exercise significant influence over its investees, Bagatelle Investors and Bagatelle NY. As of June 30, 2020 and December 31, 2019, the Company has zero carrying value in these investments.

Additionally, the Company has a management agreement with Bagatelle NY. Under this agreement, the Company did not record management fee revenue for the three months ended June 30, 2020 and recorded less than \$0.1 million of management fee revenue in the six months ended June 30, 2020. The Company recorded \$0.2 million of management fee revenue in the three months ended June 30, 2019, and \$0.3 million for the six months ended June 30, 2019. **Note 8 – Income taxes**

The Company's effective income tax rate was 32.4% for the six months ended June 30, 2020 compared to 11.8% for the six months ended June 30, 2019. The Company's projected annual effective tax rate differs from the statutory U.S. tax rate of 21% primarily due to the following: (i) tax credits for FICA taxes on certain employees' tips (ii) taxes owed in foreign jurisdictions such as the United Kingdom, Canada and Italy; and, (iii) taxes owed in state and local jurisdictions.

The CARES Act includes provisions allowing for the carryback of net operating losses generated for specific periods and technical amendments regarding the expensing of qualified improvement property. The CARES Act also allows for the deferral of the employer-paid portion of social security taxes, which the Company has elected to defer. The Company continues to evaluate the tax-related provisions under the CARES Act.

The Company is subject to income taxes in the U.S. federal jurisdiction, and the various states and local jurisdictions in which it operates. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. In the normal course of business, the Company is subject to examination by the federal, state, local and foreign taxing authorities.

**Note 11 – (Loss) earnings per share**

Basic (loss) earnings per share is computed using the weighted average number of common shares outstanding during the period and income available to common stockholders. Diluted (loss) earnings per share is computed using the weighted average number of common shares outstanding during the period plus the dilutive effect of all potential shares of common stock including common stock issuable pursuant to stock options, warrants, and restricted stock units.

For the three and six months ended June 30, 2020 and 2019, the (loss) earnings per share was calculated as follows (in thousands, except earnings per share and related share data):

	Three months ended June 30,		Six months ended June 30,	
	2020	2019	2020	2019
Net (loss) income attributable to The ONE Group Hospitality, Inc.	\$ (2,872)	\$ (322)	\$ (7,471)	\$ 532
Basic weighted average shares outstanding	28,907,568	28,432,510	28,778,544	28,373,974
Dilutive effect of stock options, warrants and restricted share units	—	—	—	1,082,790
Diluted weighted average shares outstanding	28,907,568	28,432,510	28,778,544	29,456,764
Net (loss) earnings available to common stockholders per share - Basic	\$ (0.10)	\$ (0.01)	\$ (0.26)	\$ 0.02

### Business Summary

We are a global hospitality company that develops, owns and operates, manages and licenses upscale and polished casual, high-energy restaurants and lounges and provides turn-key food and beverage (“F&B”) services for hospitality venues including hotels, casinos and other high-end locations. Turn-key F&B services are food and beverage services that can be scaled, customized and implemented by us for the client at a particular hospitality venue. Our vision is to be a global market leader in the hospitality industry

by melding high-quality service, ambiance, high-energy and cuisine into one great experience that we refer to as “Vibe Dining”. We design all our restaurants, lounges and F&B services to create a social dining and high-energy entertainment experience within a destination location. We believe that this design and operating philosophy separates us from more traditional restaurant and foodservice competitors.

Our primary restaurant brands are STK, a multi-unit steakhouse concept that combines a high-energy, social atmosphere with the quality and service of a traditional upscale steakhouse, and Kona Grill, a bar-centric grill concept featuring American favorites, award-winning sushi, and specialty cocktails in a polished casual atmosphere. Our F&B hospitality management services include developing, managing and operating restaurants, bars, rooftop lounges, pools, banqueting and catering facilities, private dining rooms, room service and mini bars tailored to the specific needs of high-end hotels and casinos. Our F&B hospitality clients operate global hospitality brands such as the W Hotel, Hippodrome Casino, and ME Hotels.

We opened our first restaurant in January 2004 in New York, New York, and, as of June 30, 2020, we owned, operated, managed or licensed 55 venues including 20 STKs and 24 Kona Grills in major metropolitan cities in North America, Europe and the Middle East and 11 F&B venues, including 10 in five hotels and casinos in the United States and Europe. For those restaurants and venues that are managed or licensed, we generate management and incentive fee revenue based on a percentage of the location’s revenues and net profits.

The table below reflects our venues by restaurant brand and geographic location as of June 30, 2020:

#### COVID-19

The novel coronavirus (“COVID-19”) pandemic has significantly impacted the Company’s business, and public concerns about the spread of COVID-19 continue to be widespread. The Company experienced a significant reduction in guest traffic at its restaurants as a result of restrictions mandated by state and local governments and temporarily closure of several restaurants and the shift in operations to provide only take-out and delivery service. Starting in May 2020, state and local governments began easing restrictions on stay-at-home orders and certain Company restaurants were allowed to open for outdoor dining or in-person dining with seating capacity restrictions, which resulted in increased revenues in May and June compared to April 2020.

In response to these conditions, and out of concern for our customers and partners, the Company has implemented enhanced safety measures and sanitation procedures to allow for in-person dining at our restaurants. The Company incurred \$0.7 million and \$2.0 million of costs related to COVID-19 in the three and six months ended June 30, 2020, respectively, composed primarily of payments to employees for paid-time off during restaurant closures, inventory waste, rent and rent related costs for closed and limited-operations restaurants from the day that the dining room closed, sanitation supplies and safety precautions taken to prevent the spread of COVID-19. The Company has also implemented measures to reduce its costs during the COVID-19 pandemic, including the furlough of employees, deferral of capital projects, and negotiations with suppliers and landlords regarding deferral or abatement of payments which could become significant.

Given the ongoing uncertainty surrounding the effects of the COVID-19 pandemic, the Company cannot reasonably predict when its restaurants will be able to return to normal dining room operations. The Company expects that its results of operations will be materially and negatively affected by COVID-19 for the remainder of 2020. The Company’s resumption of normal dining operations is subject to events beyond its control, including the effectiveness of governmental efforts to halt the spread of COVID-19.

### **Acquisitions**

On October 4, 2019, we acquired substantially all of the assets of Kona Grill Inc. and its affiliates (“Kona Grill”) comprising 24 domestic restaurants. We purchased the assets for a contractual price of \$25.0 million plus approximately \$1.5 million of consideration paid primarily for the apportionment of rent and utilities. We also assumed approximately \$7.7 million in current liabilities. The purchase was financed with proceeds from the credit and guaranty agreement we entered into with Goldman Sachs Bank USA in conjunction with the acquisition (“Credit Agreement”). Over the remainder of 2020, we are integrating Kona Grill by leveraging our corporate infrastructure, our bar-business knowledge and unique Vibe Dining program, to elevate the brand experience and drive improved performance.

### **Executive Summary**

Total revenue decreased \$6.9 million, or 29.4% to \$16.7 million for the three months ended June 30, 2020 compared to \$23.6 million for the three months ended June 30, 2019 primarily due to the COVID-19 pandemic, partly offset by the addition of the Kona Grill restaurants. Same-store sales decreased 66.7% in the second quarter of 2020 compared to the second quarter of 2019 as restaurants were temporarily closed or operated on a limited basis due to state and local mandates. Approximately \$12.4 million of the total revenue for the quarter ended June 30, 2020 was attributable to the addition of the Kona Grill restaurants. Revenues improved sequentially throughout the second quarter of 2020 as state and local governments relaxed restrictions. Same-store sales for the months of April, May and June 2020 decreased 90.2%, 70.2% and 40.1%, respectively.

Operating income decreased \$5.8 million to an operating loss of \$5.3 million for the three months ended June 30, 2020 from operating income of \$0.5 million for the three months ended June 30, 2019. The decrease was primarily driven by lower revenues due to temporarily closures or limited operations due to the COVID-19 pandemic. For the six months ended June 30, 2020, we incurred an operating loss of \$9.6 million compared to operating income of \$1.6 million for the six months ended June 30, 2019. Funds from the CARES Act Loans were used to support operations and bring workforce back from furlough during the COVID-19 pandemic. Additionally, we incurred \$0.7 million and \$2.0 million of costs related to COVID-19 in the three and six months ended June 30, 2020, respectively, composed primarily of payments to employees for paid-time off during restaurant closures, inventory waste, rent and rent-related costs for closed and limited-operations restaurants from the day that the dining room closed, sanitation supplies and safety precautions taken to prevent the spread of COVID-19.

EBITDA and Adjusted EBITDA are presented in this Quarterly Report on Form 10-Q to supplement other measures of financial performance. EBITDA and Adjusted EBITDA are not required by, or presented in accordance with, accounting principles generally accepted in the United States of America (“GAAP”). We define EBITDA as net income before interest expense, provision for income taxes and depreciation and amortization. We define Adjusted EBITDA as net income before interest expense, provision for income taxes, depreciation and amortization, non-cash impairment loss, non-cash rent expense, pre-opening expenses, lease termination expenses, stock-based compensation and non-recurring gains and losses. Not all of the items defining Adjusted EBITDA occur in each reporting period but have been included in our definitions of these terms based on our historical activity.

We believe that EBITDA and Adjusted EBITDA are appropriate measures of our operating performance because they eliminate non-cash or non-recurring expenses that do not reflect our underlying business performance. We use these metrics to facilitate a comparison of our operating performance on a consistent basis from period to period, to analyze the factors and trends affecting our business and to evaluate the performance of our restaurants. Adjusted EBITDA has limitations as an analytical tool and our calculation of Adjusted EBITDA may not be comparable to that reported by other companies; accordingly, you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Adjusted EBITDA is a key measure used by management. Additionally, Adjusted EBITDA is frequently used by analysts, investors and other interested parties to evaluate companies in our industry. We use Adjusted EBITDA, alongside other GAAP measures such as net income, to measure profitability, as a key profitability target in our budgets, and to compare our performance against that of peer companies despite possible differences in calculation.

The following table presents a reconciliation of net (loss) income to EBITDA and Adjusted EBITDA for the periods indicated (in thousands):

## Results of Operations for the Three Months Ended June 30, 2020 and 2019

### Revenues

**Owned restaurant net revenue.** Owned restaurant net revenue decreased \$4.4 million to \$16.5 million for the three months ended June 30, 2020 from \$20.9 million for the three months ended June 30, 2019. The decline in revenue is attributable to COVID-19 which resulted in the temporary closure of certain restaurants and a shift to delivery/take-out business and limited in-person seating due to state and local mandates. Approximately \$12.4 million of the owned restaurant revenue is attributable to the addition of the Kona Grill restaurants in the second quarter of 2020 compared to the prior year period. Comparable restaurant sales decreased 66.7% in the second quarter of 2020.

**Management and license fee revenue.** Management and license fee revenues decreased \$2.6 million to \$0.1 million for the three months ended June 30, 2020 from \$2.7 million for the three months ended June 30, 2019. Management and license fee revenue decreased primarily as a result of temporary closures of our managed locations due to COVID-19 prevention measures.

### Cost and Expenses

**Owned restaurant cost of sales.** Food and beverage costs for owned restaurants decreased \$1.3 million, or 24.4% to \$4.2 million for the three months ended June 30, 2020 from \$5.5 million for the three months ended June 30, 2019. The decrease in owned restaurant cost of sales was due to the temporary closures and limited operations of our restaurants as a result of COVID-19 during the second quarter of 2020.

**Owned restaurant operating expenses.** Owned restaurant operating expenses decreased \$1.6 million to \$12.0 million for the three months ended June 30, 2020 from \$13.6 million for the three months ended June 30, 2019. The Company is actively managing operating costs and negotiating with landlords on rent concessions due to the impact of COVID-19 on its restaurant sales.

**General and administrative.** General and administrative costs decreased \$0.3 million, or 9.8%, to \$2.4 million for the three months ended June 30, 2020 from \$2.7 million for the three months ended June 30, 2019. We have implemented measures to reduce our costs while our operations are affected by COVID-19, including furlough of certain employees, deferral of capital projects, and reduction of third-party professional services.

Depreciation and amortization. Depreciation and amortization expense increased \$1.5 million to \$2.5 million for the three months ended June 30, 2020 from \$1.0 million for the three months ended June 30, 2019 due to the addition of the Kona Grill restaurants.

COVID-19 related expenses. In the three months ended June 30, 2020, we incurred approximately \$0.7 million of direct costs related to COVID-19, composed primarily of payments to employees for paid-time off during restaurant closures, benefit costs for furloughed employees, inventory waste, sanitation supplies and safety precautions taken to prevent the spread of COVID-19.

Interest expense, net of interest income. Interest expense, net of interest income was \$1.2 million and \$0.2 million for the three months ending June 30, 2020 and 2019, respectively. The Company refinanced its debt in October 2019 in conjunction with the Kona Grill acquisition.

Loss on early debt extinguishment. When we entered into a credit agreement with Bank of America during the second quarter of 2019, we recognized a \$0.4 million loss on debt extinguishment primarily related to the recognition of unamortized discounts on warrants and unamortized debt issuance costs related to the debt extinguished.

(Benefit) provision for income taxes. The benefit for income taxes for the three months ended June 30, 2020 was a tax benefit of \$3.2 million compared to a tax benefit of \$0.1 million for the three months ended June 30, 2019. Our annualized effective tax rate is estimated at 32.4% for 2020 compared to 10.2% for the six months ended June 30, 2019. Our projected annual effective tax rate differs from the statutory U.S. tax rate of 21% primarily due to the following: (i) tax credits for FICA taxes on certain employees' tips (ii) taxes owed in foreign jurisdictions such as the United Kingdom, Canada and Italy; and, (iii) taxes owed in state and local jurisdictions.

Net loss attributable to noncontrolling interest. Net loss attributable to noncontrolling interest was \$0.4 million compared to net income of \$0.2 million for the three months ended June 30, 2020 and 2019, respectively, due to the impact of COVID-19.

## **Results of Operations for the Six Months Ended June 30, 2020 and 2019**

### *Revenues*

Owned restaurant net revenue. Owned restaurant net revenue increased \$14.1 million, or 34.2% to \$55.1 million for the six months ended June 30, 2020 from \$41.0 million for the six months ended June 30, 2019. Approximately \$33.1 million of the increase in owned restaurant revenue is attributable to the addition of the Kona Grill restaurants. The increase in total revenue was partially offset by the temporarily closures and limited operations of our restaurants beginning in March 2020 as a result of COVID-19. Comparable restaurant sales decreased 40.7% in the first six months of 2020.

Management and license fee revenue. Management and license fee revenues decreased \$3.0 million to \$2.3 million for the six months ended June 30, 2020 from \$5.3 million for the six months ended June 30, 2019. Management and license fee revenue decreased primarily as a result of temporary closures for our managed locations due to COVID-19. The majority of our managed international locations have since reopened for business subject to certain governmental mandates.

### *Cost and Expenses*

Owned restaurant cost of sales. Food and beverage costs for owned restaurants increased \$3.8 million to \$14.3 million for the six months ended June 30, 2020 from \$10.5 million for the six months ended June 30, 2019. Approximately \$8.7 million of the increase in owned restaurant cost of sales is attributable to the addition of the Kona Grill restaurants. The increase in owned restaurant cost of sales was partially offset by the temporary closures and limited operations of our restaurants beginning in March 2020 as a result of COVID-19.

Owned restaurant operating expenses. Owned restaurant operating expenses increased \$12.2 million to \$38.5 million for the six months ended June 30, 2020 from \$26.3 million for the six months ended June 30, 2019. Approximately \$22.7 million of the owned restaurant operating expenses for the period is attributable to the addition of the Kona Grill restaurants. The Company began reducing operating costs in March due to the business impact of COVID-19. As restaurant sale volumes increase with the resumption of in-person dining, restaurant operating costs are expected to increase proportionately.

General and administrative. General and administrative costs increased \$0.4 million, or 9.0%, to \$5.8 million for the six months ended June 30, 2020 from \$5.4 million for the six months ended June 30, 2019. However, general and administrative costs as a percentage of total revenues decreased to 10.2% for the six months ended June 30, 2020 from 11.5% for the six months ended

June 30, 2019. We have implemented measures to reduce our costs while our operations are affected by COVID-19, including furlough of certain employees, deferral of capital projects, and reduction of third-party professional services.

*Depreciation and amortization.* Depreciation and amortization expense increased \$3.0 million to \$4.9 million for the six months ended June 30, 2020 from \$1.9 million for the six months ended June 30, 2019 due to the addition of the Kona Grill restaurants.

*Transaction and integration costs.* In the six months ended June 30, 2020, we incurred transaction and integration costs of \$1.1 million related to the Kona Grill acquisition, which closed on October 4, 2019. Over the remainder of 2020, we intend to continue to integrate Kona Grill by leveraging our corporate infrastructure, our bar-business knowledge and unique Vibe Dining program, to elevate the brand experience and drive improved performance.

*COVID-19 related expenses.* In the six months ended June 30, 2020, we incurred approximately \$2.0 million of direct costs related to COVID-19, composed primarily of payments to employees for paid-time off during restaurant closures, inventory waste, rent and rent related costs for closed and limited-operations restaurants from the day that the dining room closed, sanitation supplies and safety precautions taken to prevent the spread of COVID-19.

*Lease termination expenses.* In the six months ended June 30, 2020, lease termination expense was approximately \$0.3 million. Lease termination expenses are costs associated with closed, abandoned and disputed locations or disputed leases.

*Pre-opening expenses.* Pre-opening expenses for the six months ended June 30, 2019 were \$0.5 million related to the development of our owned STK restaurant in Nashville, Tennessee which opened in June 2019.

*Interest expense, net of interest income.* Interest expense, net of interest income was approximately \$2.4 million and \$0.5 million for the six months ending June 30, 2020 and 2019, respectively.

*(Benefit) provision for income taxes.* The benefit for income taxes for the six months ended June 30, 2020 was a tax benefit of \$3.9 million compared to tax expense of \$0.1 million for the six months ended June 30, 2019. Our annualized effective tax rate is estimated at 32.4% for 2020 compared to 10.2% for the six months ended June 30, 2019.

*Net loss attributable to noncontrolling interest.* Net loss attributable to noncontrolling interest was \$0.7 million compared to net income of \$0.1 million for the six months ended June 30, 2020 and 2019, respectively, due to the impact of COVID-19.

## **Liquidity and Capital Resources**

### *Executive Summary*

Our principal liquidity requirements are to meet our lease obligations, our working capital and capital expenditure needs and to pay principal and interest on our outstanding indebtedness. Subject to our operating performance, which, if significantly adversely affected, would adversely affect the availability of funds, we expect to finance our operations for at least the next 12 months, including the costs of opening currently planned new restaurants, through cash provided by operations, use of proceeds from the CARES Act Loans, borrowings on our Credit Agreement and construction allowances provided by landlords of certain locations. We believe the combination of the aforementioned items are adequate to support our immediate business operations and plans. As of June 30, 2020, we had cash and cash equivalents of approximately \$23.5 million which includes \$10.2 million in cash from the CARES Act Loans. We had \$47.8 million in long-term debt, which consisted of our Credit Agreement and an equipment financing agreement, and \$18.3 million in CARES Act Loans as of June 30, 2020. As of June 30, 2020, the availability on our revolving credit facility was \$10.7 million, subject to the restrictions described in Note 5.

In the six months ended June 30, 2020, our capital expenditures were \$1.7 million. Our future cash requirements will depend on many factors, including the pace of our expansion, conditions in the retail property development market, construction costs, the nature of the specific sites selected for new restaurants, and the nature of the specific leases and associated tenant improvement allowances available, if any, as negotiated with landlords. Additionally, under our current capital light strategy, we plan to enter into management and license agreements for the operation of STK restaurants where we are not required to contribute significant capital upfront.

Our operations have not required significant working capital, and, like many restaurant companies, we have negative working capital. Revenues are received primarily in credit card or cash receipts, and restaurant operations do not require significant receivables or inventories, other than our wine inventory. In addition, we receive trade credit for the purchase of food, beverages and supplies, thereby reducing the need for incremental working capital to support growth.

In the event the Company needs to temporarily suspend all operations due to COVID-19, the ongoing operating costs per month are expected to be as follows:

Minimum rent	\$	1,200
Insurance payments		200
Interest payments		400
Minimum general & administrative costs		500
Total	\$	<u>2,300</u>

#### *Goldman Sachs Credit Agreement*

On October 4, 2019, in conjunction with the acquisition of Kona Grill, we entered into the Credit Agreement, which replaced the credit agreement with Bank of America and provides for a secured revolving credit facility of \$12.0 million and a \$48.0 million term loan. The term loan is payable in quarterly installments, with the final payment due in October 2024. The revolving credit facility also matures in October 2024.

On May 4, 2020, Goldman Sachs Bank USA (“GSB”), as administrative agent, collateral agent and lead arranger under the Credit Agreement, (1) consented to the CARES Act Loans described below and (2) agreed that the amount of the CARES Act Loans will not be counted toward the permitted amount of Consolidated Total Debt, as defined under the Credit Agreement, to the extent the amounts are retained as cash during the term of the CARES Act Loans in a segregated deposit account or used for purposes that are forgivable under the CARES Act, provided that the proceeds of the CARES Act Loans must be used only for “allowable uses” under the CARES Act (with at least 75% of the utilized proceeds to be used for purposes that result in the CARES Act Loans being eligible for forgiveness) or used for the repayment of the CARES Act Loans.

On May 8, 2020, GSB and the Company and certain of its subsidiaries entered into an amendment to the Credit Agreement that:

- Relaxes the fixed charge coverage ratio (decreasing the ratio for remaining measurement dates in 2020 to 1.20 to 1.00 from 1.35 to 1.00) and the leverage ratio (increasing the ratio at June 30, 2020 to 3.00 to 1.00 from 2.50 to 1.00, and the ratio at September 30 and December 31, 2020 to 2.75 to 1.00 from 2.25 to 1.00).
- Requires minimum “Consolidated Liquidity” to be \$4,000,000 for the remainder of 2020 (from \$1,500,000).

As of June 30, 2020, we were in compliance with the covenants required by the Credit Agreement, as amended on August 10, 2020. Based on current projections, we believe that we would continue to comply with the covenants in the Credit Agreement, as amended, throughout the twelve months following the issuance of the financial statements. Additionally, our consolidated adjusted EBITDA as defined by the Credit Agreement for determining covenant compliance includes pro forma adjustments for the annualization of the Kona Grill restaurant performance which includes results before the acquisition date.

Refer to Note 5, Note 15 and Note 16 to our condensed consolidated financial statements set forth in Item 1 of this Quarterly Report on Form 10-Q for further information regarding the terms of our long-term debt arrangements and information regarding our commitments and contingencies.

#### *CARES Act Loans*

On May 4, 2020, two subsidiaries of the Company obtained CARES Act Loans from BBVA USA under the Paycheck Protection Program (“PPP”) created by the CARES Act. Repayment of the CARES Act Loans is guaranteed by the SBA. The ONE Group, LLC received a loan of \$9.8 million related to the operations of STK restaurants, and Kona Grill Acquisition, LLC received a loan of \$8.5 million related to the operation of Kona Grill restaurants.

The CARES Act Loans are scheduled to mature on April 28, 2022 and have a 1.00% interest rate and are subject to the terms and conditions applicable to PPP loans. Among other terms, BBVA USA may declare a default of the CARES Act Loans if the SBA disputes the validity of the guaranty of indebtedness, if a material adverse change occurs in our financial condition, or if BBVA USA believes the prospect of repayment of the CARES Act Loans or performance of obligations under the promissory notes is impaired. On an event of default, BBVA USA may declare principal and unpaid interest immediately due and payable, and it may charge default interest of 10%.

The CARES Act Loans are eligible for forgiveness if the proceeds are used for qualified purposes within a specified period and if at least 60% is spent on payroll costs. The Company is using the funds in accordance with the CARES Act and SBA regulations, and these funds have supported the re-opening of in person dining and the return of approximately 3,000 furloughed employees to work. At this time, the Company anticipates forgiveness of the entire amount of the CARES Act Loans; however, no assurance can be provided that the Company will obtain forgiveness of the CARES Act loans in whole or in part. Therefore, the Company has elected to classify the entire principal amount of the CARES Act Loans as long-term debt on the condensed consolidated balance sheet as of June 30, 2020. As of June 30, 2020, there was \$10.2 million in remaining funds available to be used for qualified purposes.

#### *Capital Expenditures and Lease Arrangements*

Given the present uncertainty due to the COVID-19 pandemic, the Company has deferred capital expenditures. To the extent we open new company-owned restaurants, we anticipate capital expenditures would increase related to the construction of new restaurants compared to general capital expenditures of existing restaurants. Although we are committed to our capital light strategy, in which our capital investment is expected to be limited, we are willing to consider opening owned restaurants as opportunities arise. For owned restaurants, where we build from a shell state, we have typically targeted an average cash investment of approximately \$3.8 million for a 10,000 square-foot STK restaurant, net of landlord contributions and equipment financing and excluding pre-opening costs. For locations where we may be the successor restaurant tenant, and currently our preference, total cash investment will be significantly less and in the \$1.0 million to \$1.5 million range. Typical pre-opening costs will be in the \$0.3 million to \$0.5 million range. In addition, some of our existing restaurants will require capital improvements to either maintain or improve the facilities. We may add seating or provide enclosures for outdoor space in the next twelve months for some of our locations, which we expect will increase revenues for those locations. If the impact of COVID-19 persists, the Company may evaluate the timing of opening new locations.

Our hospitality F&B services projects typically require limited capital investment from us. Capital expenditures for these projects will primarily be funded by cash flows from operations and equipment financing, depending upon the timing of these expenditures and cash availability.

We typically seek to lease our restaurant locations for periods of 10 to 20 years under operating lease arrangements, with a limited number of renewal options. Our rent structure varies, but our leases generally provide for the payment of both minimum and contingent rent based on sales, as well as other expenses related to the leases such as our pro-rata share of common area maintenance, property tax and insurance expenses. Many of our lease arrangements include the opportunity to secure tenant improvement allowances to partially offset the cost of developing and opening the related restaurants. Generally, landlords recover the cost of such allowances from increased minimum rents. However, there can be no assurance that such allowances will be available to us on each project that we select for development.

For the six months ended June 30, 2020, we spent a total of \$1.7 million in capital expenditures compared to \$2.9 million spent for the same period in the prior year. We expect to keep capital expenditures at a low level as long as the uncertainty related to COVID-19 continues.

#### *Cash Flows*

The following table summarizes the statement of cash flows for the six months ended June 30, 2020 and 2019 (in thousands):

	For the six months ended June 30,	
	2020	2019
Net cash provided by (used in):		
Operating activities	\$ (4,927)	\$ 2,144
Investing activities	(1,681)	(2,917)
Financing activities	17,779	270
Effect of exchange rate changes on cash	(55)	(290)
Net increase (decrease) in cash and cash equivalents	\$ 11,116	\$ (793)

*Operating Activities.* Net cash used by operating activities was \$4.9 million for the six months ended June 30, 2020 compared to \$2.1 million of net cash generated from operating activities for the six months ended June 30, 2019. The decrease was primarily attributable to an increase in the net loss for the six months ended June 30, 2020 as a result of the temporary closure of our restaurants due to the COVID-19 pandemic as well as \$2.0 million in expenses for payments to employees for paid-time off during restaurant closures, inventory waste and other costs directly attributable to COVID-19, and \$1.1 million in transaction and integration expenses related to the Kona Grill acquisition.

*Investing Activities.* Net cash used in investing activities for the six months ended June 30, 2020 was \$1.7 million compared to \$2.9 million for the six months ended June 30, 2019. We have implemented measures to reduce our costs for the foreseeable future due to COVID-19, including the deferral of most non-safety related capital projects.

*Financing Activities.* Net cash provided by financing activities for the six months ended June 30, 2020 was \$17.8 million compared to \$0.3 million in the six months ended June 30, 2019. We received \$18.3 million in proceeds from the CARES Act Loans.

#### **Off-Balance Sheet Arrangements**

We do not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K.

#### **Recent Accounting Pronouncements**

See Note 1 to our condensed consolidated financial statements set forth in Item 1 of this Quarterly Report on Form 10-Q for a detailed description of recent accounting pronouncements. We do not expect the recent accounting pronouncements discussed in Note 1 to have a significant impact on our condensed consolidated financial position or results of operations.

#### **Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

As a “smaller reporting company,” as defined by Item 10 of Regulation S-K, we are not required to provide this information.

#### **Item 4. Controls and Procedures.**

##### *Evaluation of Disclosure Controls and Procedures*

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, carried out an evaluation as of the last day of the period covered by this Quarterly Report on Form 10-Q of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (“Exchange Act”). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures (a) are effective to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is timely recorded, processed, summarized and reported and (b) include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

##### *Changes in Internal Controls*

There were no changes in our internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, that occurred during the second quarter of 2020 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## **PART II — OTHER INFORMATION**

#### **Item 1. Legal Proceedings.**

We are subject to claims common to our industry and in the ordinary course of our business. Companies in our industry, including us, have been and are subject to class action lawsuits, primarily regarding compliance with labor laws and regulations. Defending lawsuits requires significant management attention and financial resources and the outcome of any litigation is inherently uncertain. We believe that accrual and disclosure for these matters are adequately provided for in our consolidated financial statements. We do not believe the ultimate resolutions of these matters will have a material adverse effect on our consolidated financial position and results of operations. However, the resolution of lawsuits is difficult to predict. A significant increase in the number of these claims, or

one or more successful claims under which we incur greater liabilities than is currently anticipated, could materially and adversely affect our consolidated financial statements.

**Item 1A. Risk Factors.**

The risk factors below update the risks factors contained in Item 1A of our Form 10-K for the year ended December 31, 2019.

***The outbreak of COVID-19 has, and will continue to, significantly affect our restaurant traffic and our business, financial condition and results of operations.***

The outbreak of COVID-19 and government actions to contain COVID-19 have, and may continue for an extended period of time to, materially and adversely affected our restaurant traffic and our business, and may continue to materially and adversely affect us for an extended period. In response to the COVID-19 pandemic, in March 2020 government agencies declared a state of emergency in the U.S. and in foreign jurisdictions where we operate, and some government agencies restricted movement, required restaurant and bar closures, and advised people not to visit restaurants or bars. In some jurisdictions, people were instructed to stay at home to reduce the spread of COVID-19. In response to these conditions, we temporarily closed several restaurants and shifted operations at others to provide only take-out and delivery service. Although certain of our restaurants have been allowed to open for outdoor dining or in-person dining they are subject to seating capacity restrictions to allow for social distancing.

A prolonged occurrence and resurgence of COVID-19 cases may result in state or local governments implementing further guidelines, including travel restrictions, social distancing requirements and additional restrictions on the restaurant industry, including closures or partial closures. We are unable to predict how long the pandemic will last, what additional restrictions may be enacted, the extent to which our restaurants may be impacted if a significant number of our employees are diagnosed with COVID-19, or if an outbreak of COVID-19 is traced to one of our restaurants.

We have made operational changes to adhere to government requirements on safety and sanitation in our restaurants. However, we cannot guarantee that changes to our operational policies and training will be effective to keep our employees and customers safe from COVID-19. COVID-19 may impact the willingness of customers to dine outside of the home. While it is not possible at this time to estimate the full impact that COVID-19 could have on our business going forward, the continued spread of the virus and the measures taken by governments or by us in response could adversely impact our business, financial condition and results of operations.

In response to the challenging business environment, we obtained CARES Act Loans as described in Note 5 to our condensed consolidated financial statements. At this time, we anticipate forgiveness of the entire amount of the CARES Act Loans; however, no assurance can be provided that we will obtain forgiveness of the CARES Act Loans in whole or in part.

The COVID-19 pandemic may also have the effect of heightening other risks disclosed in the Risk Factors section in our Annual Report on Form 10-K for the year ended December 31, 2019, including, but not limited to, those related to cybersecurity, supply chain, and liquidity.
